Rosebud Secondary College
Acceptable Use Agreement for BYODs, the Internet and Digital Technologies

Rosebud Secondary College believes the teaching of cyber safety and responsible online behaviour is essential in the lives of students and is best taught in partnership between home and school.

21st century students spend increasing amounts of time online, learning and collaborating. To be safe online and to gain the greatest benefit from the opportunities provided through an online environment, students need to do the right thing by themselves and others online, particularly where no one is watching.

Safe and responsible behaviour is explicitly taught at RSC and parents/carers are requested to reinforce this behaviour at home.

Some online activities are illegal and as such will be reported to police.
